the Amildar was
asked to report thereon.

By Survey No 206
dated 3rd Dec 1853

2. In the meantime the
villagers represented to
the Amildar that there
was a Gokatte in Survey
No 54 useful for their
Cattle, that there was no
other source of water for
their Cattle and therefore
requested that the land
might be given to them
subject to the payment
of the Kandayam taxes
by the villagers concerned.

Vide Petition dated
14th Nov 1853.

3. The Amildar reported
that the two numbers 53 &
54 were assessed waste
lands; that there existed
a Gokatte in Survey No 54,
that there was a tank be-
longing to the Sarpangatta
Krishnasagara village,
the water of which flows
by

Vide his letter dated 16th Dec 1853

by the side of the forest lands of the village in question, the villagers cattle used to go and drink water; and recommended that the two Kumiris might be given over to Shri Rea on payment of Rs 5/- as the value of the plants subject to the condition that the villagers should be allowed to make use of the katie without any restriction.

4. After inspection of the plan and report of the village Talati by the Mamlatdar, the Deputy Commissioner directed the lands in question being made over to Shri Rea for forest purposes, the Survey and the said leading to it being reserved and formed into a separate number.

5. Regarding the subject Prajasudhar submitted

To

The Revenue Secretary to the
Government of Mysore,

Sir,

I have the honor to submit that in Survey No 54 of the Avalahally village, Bangalore Taluk, a Gokatte or cattle pond is situated, and that when Mr. A. Rea, Superintendent Archeological Survey, applied for the whole number for cultivation, the Gokatte, which is 1 acre and 18 Guntas and assessed at Rs 1-12-0 was detached, made into a sub No. 54/1 and reserved for the use of village cattle. Mr. Rea wants this detached portion to be given to him and proposes to improve the Katte by deepening it and store

water therein, not only for the use of the village cattle, but also for the benefit of crops on his land. The villagers have no objection to Mr Reas application being granted, and as the Sokalé is situated in the middle of his holding, I beg to solicit sanction to give it over to him for improvement, as proposed, on condition that he keeps it in good condition and does not prevent access to Ryots cattle &c.

2. The entire record of the case is enclosed.

I have the honor to be,
Sir,

proposed by Mr Rea. The
next ~~thing~~ question to
be considered is whether,
if Mr Rea utilizes the
water of the Katte in
question for growing
coffee & pays no extra
assessment on that account,
the present value of the Katté
should not be recovered
from him. It is presumed
that the Katté gets no
other water, nor does
it intercept the flow
of water to another tank.
None is to any dispute
between the Ryots and
Mr Rea ~~is~~ to be settled
if in the hot weather
when water is wanted
for the cattle, Mr Rea
uses it up for his coffee?
The Dy Commr is therefore requested
to make the necessary
investigation himself
in the light of the above.

Entire Note, the reasons seem to be sufficient in favour of the present state of things continuing.

(18)

Dy Commissioner's Office.
Bangalore district.
Dated 27th January 1897.
2nd February 1897.

To
The Secretary to the Government
of Mysore,
Genl & Rev Departments,
Bangalore.

Sir,

With adverteuce to the orders of Government conveyed in your Docket No 9563 R. 3089 dated 22nd April last, I have the honor to state that I visited, in company with the Amildar, the village of Kudlalli, Bangalore Taluk, and inspected the lands concerned, yesterday. The Rea and the ryots were also present.

2. The Katte in question hardly deserves the name. It is both small and dilapidated. Being situated on the crest of a high plain, it gets little or no water, and there was only a small puddle in the middle of it in this part of the year. It is easy to imagine what will be its lot in the hot months. It has besides no sluice or other contrivance for irrigation, and I think its utilization for any irrigation purposes may be looked upon as a remote contingency. Mr Rea wishes to keep it in this

his holding chiefly (1) because it is situated close to his house, and (2) because it may be so far improved as to contain some more water in order to keep alive in the hot weather his coffee plants, which he intends to put in the land near by.

3. The villagers headed by the Patel and Shanbhag had already formulated the conditions on which they are willing to let Mr. Rea have the Katte, which has been parcelled off before now into survey No 54/1: they are (1) that Mr. Rea should relinquish to the villagers so much of his Survey No 79 as has been already fenced off for a pathway for the cattle, together with a shallow Katte in it; (2) that Mr. Rea should allow their cattle to drink in the Katte near his house, No 54/1, and to go to it by a path 20 feet wide, and (3) that Mr. Rea should pay Rs 50/- in cash, in order that the villagers may improve a 3rd pond or Katte situated far off in their pasture lands. The inhabitants of the village have reiterated the above conditions and signed an agreement to that effect before me. It will be found in the attached record. Mr. Rea

(21)

tender under the Parkhurst Rules, but that the land is situated within half a mile from the Findhorn Railway line, and Government line in Pp 3456 & 316, dated 2nd August 894 expressed a desire to reserve such lands. From personal inspection, I am confident that the above numbers are not likely to be required by Government for a long time for the purposes contemplated. There are large tracts of waste land about the locality, and no useful object will be served by reserving them. I therefore request sanction to giving the same to the Rev. on the full survey assessment.

I. Memorandum files connected with the above matters are submitted.

I have the honor to be,
Sir,
Your most obedient Servant,

Assistant Commissioner
Dy Commissioner

has agreed to these terms and has signed the villagers' Muchelika.

4. Mr. Cox's bungalo, now thatched, is situated about half a mile from the village, and I do not anticipate any clash between him and the villagers. He is spending money, of which the people get the benefit. The Tatti is now useless to them: whereas when improved it will give their cattle some water, of which there is not now even a drop so early in the year as the cold season.

5. Under these circumstances I can confidently recommend that the transfer of the Tatti to Mr. Cox may be sanctioned on the terms agreed to between the parties as above particularized. I do not think that it will cease to be Kharab (uncultivable) even after the proposed transfer. I do not therefore recommend that it should be assessed.

6. Mr. Cox has further applied for 2 waste assessed numbers in the neighbouring village of Singanikunhalli. His particulars are in the margin*. They are waste, and the villagers have deposed before me that they have no objection to his taking up the land. Mr. Cox wishes to try coffee in it, and I would have accepted his
